

Waidr Industrial Vacuum Cleaner for oil and chips

Technical Parameter

Model	OIL1236SP
Voltage	220V
Power	3600W
Airflow	572m ³ /h
Vacuum	205mbar
Noise level	67dB
Barrel capacity	80L
Cable length	8m
Inlet	50mm
Machine weight	68 kg
Machine size	650*650*1300mm

Features

1. All-in-one Single phase industrial vacuum cleaner with compact structure, specifically designed for vacuuming and separating cooling lubricants and shavings in the metalworking industry.
2. Equipped with 3 motors, the power can reach 3600W.
3. Three motors with independent switches. Different powers can be selected according to the working environment need.
4. The machine body is made of thickened mild steel. It is durable and has strong load-bearing capacity, adaptable for different working conditions.
5. Barrel capacity 80L. Solid/liquid separator capacity 45L.
6. Level drain pipe, easy to discharge the liquid.

Working Environment

Working area: Mechanical sector, in particular for the collection of metal chips mixed with oil, etc.

Accessories

50mm Anti-static
hose

50mm Suction Nozzle

50mm Flat Nozzle

Long pipe metal nozzle
