

# Waidr Machine-matched Industrial Vacuum Cleaner

## Technical Parameter

Model	WX-1530S	WX-1530FB	WX-2230S	WX-2230FB
Voltage (V)	380 (220V is optional)			
Power (kW)	1.5	1.5	2.2	2.2
Airflow (m³/h)	210	210	270	270
Vacuum (mbar)	170	170	230	230
Noise level (dB)	65	65	67	67
Filter area (cm²)	18800			
Barrel capacity (L)	30			
Cable length (m)	5			
Inlet (mm)	40			
Filter type	HEPA and filter bag			
Machine weight (kg)	35	35	45	45
Machine size (mm)	700*440*750			

## Features

1. The turbine fan can work 24/7 continuously and run smoothly.
2. Delixi control system, with overheating, overload, phase protection function;
3. Filter: The filter element is made of polyester fiber with filtering area of 18800cm<sup>2</sup>, and the filter bag is used to filter fine dust and release clean air.
4. The machine body is fully made of stainless steel metal with strong bearing capacity and can adapt to different working conditions. (Mild steel is optional.)
5. With compact structure, it can be used in conjunction with other devices, to be vacuuming which the working devices are running on the production line, which greatly improve work efficiency.

## Working Environment

Working area: Heavy industry, large warehouses, workshops, factories, etc., can be matched with production equipment.

Suitable for vacuuming welding slag, grinding rust dust, liquid mixture, sand, particles, metal chips, etc.

## Accessories

			
<b>HEPA Filter</b>	<b>40mm Anti-static hose</b>	<b>40mm Dust brush</b>	<b>40mm Wet brush</b>
			
<b>Filter bag</b>	<b>40mm Flat Nozzle</b>	<b>40mm Round brush</b>	<b>40mm S-extension tube</b>

## APPLICATION
