

# Waidr Single-phase Industrial Vacuum Cleaner

## Technical Parameter

Model	WX-2078BA	WX-2078P	WX-3078BA	WX-3078P		
Voltage	220V					
Power	2.4KW		3.6KW			
Airflow	378m3/h		572m3/h			
Vacuum	195mbar		205mbar			
Noise level	65dB		67dB			
Filter area	26800cm <sup>2</sup>					
Barrel capacity	80L					
Cable length	8m					
Inlet	40mm					
Filter type	Cone filter					
Machine weight	28kg	32kg	30kg	34kg		
Machine size	550*550*1100mm					

## Features

1. Single-phase 80L series are available for wet and dry use, with firm and compact structure.
2. Equipped with 2 or 3 motors, the power can reach 2.4kw and 3.6kw.
3. With independent switches, different powers can be selected according to the working environment need.
4. Cone filter with filtering area up of 26800cm<sup>2</sup>, and it is washable and repeatable.
5. The machine body is made of thickened stainless steel. It is durable and has strong load-bearing capacity, adaptable for different working conditions.
6. Barrel capacity 80L. By rear flipping dust bucket, it is quick and convenient to dispose the waste.
7. Manual back blowing system: By pulling the handle back and forth to change the airflow direction and clean the filter.
8. Front suction scraper is available for WX-3078P.

## Working Environment

- ◊ Working area: Factory, warehouse, food industry, hotel, sanitation, real estate, cleaning company, etc.
- ◊ Suitable for vacuuming : Ceramic powder, spray powder, toner powder, metal powder and other similar fine powder, while cleaning metal chips, sand, wood chips and a lot of dust.

## Accessories

			
<b>Cone filter</b>	<b>40mm Anti-static hose</b>	<b>40mm Dry brush</b>	<b>40mm Wet brush</b>

  

			
<b>40mm S-extension tube</b>	<b>40mm Flat Nozzle</b>	<b>40mm Round brush</b>	

## APPLICATION

### WX-3078P

#### 220V系列工业吸尘器

工厂、车间、物业、环卫、保洁等场所用  
手推式吸水吸尘干湿两用吸尘器

吸水吸尘干湿两用
