

Waidr Single-phase Industrial Vacuum Cleaner

With automatically cleaning system

Technical Parameter

Model	WX-3610DQC
Voltage (V)	220
Power (KW)	3.6
Airflow (m3/h)	572
Vacuum (mbar)	205
Noise level (dB)	67
Filter area (cm2)	26800
Barrel capacity (L)	100
Cable length (m)	8
Inlet (mm)	40
Filter type	Cone HEPA filter
Machine weight (kg)	52
Machine size (mm)	720*630*1460

Features

1. WX-3610DQC is a wet/dry use vacuum cleaner with automatically cleaning system.
2. Equipped with 3 motors, the power can reach 3600W, dry and wet dual use.
3. Three motors with independent switches. Different powers can be selected according to the working environment need.
4. Cone HEPA filter with filtering area up of 30000cm².
5. The machine body is made of thickened stainless steel. It is durable and has strong load-bearing capacity, adaptable for different working conditions;
6. 100L capacity detachable dust bucket, fast and convenient to dump waste.
7. Electric slide-jet cleaning system to clean the filter automatically.
8. Cyclone separation system makes most of the dust particles fall directly to the bottom of the barrel while being inhaled, which extends the service life of the filter.

Working Environment

Working area: Factory workshop, food processing, machinery manufacturing, metal processing and other places.

Suitable for vacuuming : Ground dust, dust, particles, liquid, wet solid matter.

Accessories

Cone HEPA filter

40mm Anti-static
hose

40mm Dry brush

40mm Wet brush

40mm S-extension
tube

40mm Flat Nozzle

40mm Round brush
