

Waidr Battery powered Industrial Vacuum Cleaner For Textile and Paper mills

Technical Parameter

Model	TM3D
Voltage (V)	24
Power (KW)	1.5
Airflow (m3/h)	351
Vacuum (mbar)	370
Noise level (dB)	70
Filter area (cm2)	26800
Barrel capacity (L)	120
Cable length (m)	/
Inlet (mm)	40
Filter type	Cone filter and Nylon filter bag
Machine weight (kg)	1
Machine size (mm)	1200*5400*1200

Features

- 1.This series is equipped with 3 motors. The power can reach 1.5kw(24V battery powered);
- 2.Independent waterproof switch, one click start operation, with adjustable suction.
- 3.Reverse air path design. It can effectively compress the absorbed material and prevent clogging;
- 4.Cone filter with filtering area up of 26800cm ², and it is washable and repeatable.
- 5.Barrel body is made of stainless steel metal material, strong bearing capacity, can adapt to different working conditions;
- 6.120L industrial large capacity dust bucket, high collection efficiency, with nylon collection bag, easy to clean;

Working Environment

- ◇ Working place: Garment factory, textile factory, paper factory, knitting manufacturing, fiber manufacturing, etc
- ◇ Suitable for absorbing lighter materials such as plastic debris, waste thread, flocs, paper scraps, cotton wadding, rags, flying flocs, etc.

Accessories

			
Nylon filter bag	40mm Anti-static hose	40mm Dust brush	40mm Wet brush
			
Cone filter	40mm Flat Nozzle	40mm Round brush	40mm S-extension tube

APPLICATION
